The Evolution of a Middle School Band Student

• Students love music
• Students musical skills are improving technically and expressively
• All students, regardless of ability, feel successful and proud to be in band
• The community is aware that band is a strength of the school
• The program is growing in enrollment and accomplishments
• There is an expectation of excellence throughout the program
Making a Difference

There are THREE kinds of children in your program:

1. Leaders 20% Kids YOU NEED
2. Social Set 60% Kids who enjoy the activity
3. Lambs 20% Kids who NEED YOU

Make sure you offer something for ALL students.

The Social Side of Band

They Get To…
• Be PART of a popular environment (and around popular kids)
• Be SUCCESSFUL
• Feel ACCEPTED and RECOGNIZED (for shy kids, a safe way to get recognized)
• Have a chance to EXPRESS their personality
• Be with their FRIENDS (often the ONLY time during the day)
• Take TRIPS, ride coasters, miss school, etc.
• Have a special place of their OWN in a new school
• Learn an art that they will eventually LOVE

Selling the Program

• We are in the music business, but recruiting is also about sales.
• You are selling TWO products Music and YOU!
• What are you offering them that makes both music and you attractive?
Overview of Recruiting Process

The Musical Aptitude Test

- Some aptitude tests: Selmer Band Test, Gordon Test, or make your own.
- A good aptitude test should include:
  - Pitch difference recognition: higher, lower, same
  - Rhythm recognition: same, different
  - Melodic recognition: same, different
- Note areas of difficulty
  - Rhythmically challenged students may not be suited for percussion
  - Students who have trouble with pitch may not enjoy French Horn
- Allow students that don’t pass the test to re-take the test.

The aptitude test is NOT used for exclusion!

The aptitude test is only ONE part of allowing children to EARN membership.
Allow students to re-take the test until they pass (help them if you need to).
Physical Issues (Potential Problems)

- **Oboe:** Extreme overbite or under bite
- **Bassoon:** Extreme under bite and students with very short finger span
- **Clarinet:** Rounded or protruding teeth. Look for ability to display flat chin
- **Trumpet/Horn:** Under bite or extreme overbite. Protruding teeth on mouthpiece rim.
- **Trombone:** Under bite and arm length. (Consider trigger trombones)
- **Flute:** “Cupid’s Bow” and extreme overbite
- **Tuba:** Torso long enough to reach mouthpiece. (Consider tuba stands)
The Instrument Testing Night

If you don’t have the resources to run a full night like this, here are some “Solutions for the Lonely”

• Use area directors for your testing night (Return the favor)
• Combine ITN with other schools in the area
• Use college music majors
• Start with only limited instrumentation.

Note: Clarinet and Trumpet are “padded” because this is where we see most attrition: Clarinets when crossing the break and Trumpets when getting to higher notes tend to have higher drop rates. These instruments also lend themselves well to filling in low reed and low brass spots later.

- Invitations are printed on nice GOLD paper. *Willy Wonka effect.*
- Have elementary school announce when band invitations will arrive
- Be ready to grab more students after others get invitations
- Final invitation has the meeting time for the New Band Families Meeting

*Congratulations! You have been chosen to play ________ in the _______ Band!*

• Schedule a “Fill In” testing in the fall for students who move in or missed the first night

Quality of Life Habits of a Successful Band Director
Balancing Life and Work for the Modern Music Professional
Scott Rush and Jeremy Lane
With a Foreword by Ray Cramer

Being a band director is more than a career—it is truly a way of life. Demanding and extended hours are par for the course. Then there's the stress of concert performances and managing students and budgets, let alone the parents!

How does a band director sustain a happy and healthy career? How best to balance work life and family life? Who should band directors turn to for support and guidance?

Written by two veteran music educators, this indispensable book is for anyone who struggles in dealing with the hazards of the profession, be it a first-year teacher or a seasoned veteran of more than 25 years. Quality of Life Habits of a Successful Band Director can be especially valuable for preservice music education students, and can help solve many problems before they start.

Topics include: early career strategies; perspectives from the masters Ray Cramer and Frank Battisti; balancing family, spouse, workplace, and personal needs; motherhood and band directing; and transferring theory to practice through the development of action steps and professional strategies.

Primary Measures of Music Audiation (K–Grade 3) and Intermediate Measures of Music Audiation (Grades 1–6)

Two aptitude tests designed to diagnose and measure music potential:

• The only brief, longitudinally valid music aptitude tests for Grades K–6.
• Crucial in helping music teachers adapt instruction to the individual musical needs of their students.
• Requires no reading or music skills. The administration time is at most two 20-minute periods.

Both tests have a similar design. The “Primary” test is recommended for use with younger children (K–3). The “Intermediate” test is recommended for older children or younger children who find the “Primary” test too simple.

Complete kit (paper version) includes: 100 rhythm answer sheets, 100 tonal answer sheets, CD with tonal and rhythm tests, introduction to testing booklet and two research monographs, one set of scoring masks, manual, 100 student profile cards, and four class record sheets.
