The Evolution of a Middle School Band Student

- Students love music
- Students musical skills are improving technically and expressively
- All students, regardless of ability, feel successful and proud to be in band
- The community is aware that band is a strength of the school
- The program is growing in enrollment and accomplishments
- There is an expectation of excellence throughout the program
Making a Difference

There are THREE kinds of children in your program:

1. Leaders  20% Kids YOU NEED
2. Social Set 60% Kids who enjoy the activity
3. Lambs 20% Kids who NEED YOU

Make sure you offer something for ALL students.

The Social Side of Band

They Get To…

• Be PART of a popular environment (and around popular kids)
• Be SUCCESSFUL
• Feel ACCEPTED and RECOGNIZED (for shy kids, a safe way to get recognized)
• Have a chance to EXPRESS their personality
• Be with their FRIENDS (often the ONLY time during the day)
• Take TRIPS, ride coasters, miss school, etc.
• Have a special place of their OWN in a new school
• Learn an art that they will eventually LOVE

Selling the Program

• We are in the music business, but recruiting is also about sales.
• You are selling TWO products Music and YOU!
• What are you offering them that makes both music and you attractive?
Overview of Recruiting Process

- Introductory Talk, in music class  Early April
- Recruiting Concert  Mid April
- Follow up Meeting (including assessment)  Mid April
- Instrument Testing Night, to narrow choices  Late April
- Evaluating your prospects  Late April
- Balance Your Ensemble (take a week to do this)  Late April
- Hand out Invitations at elementary school  Early May
- Follow up (abbreviated) Instrument Testing Night  Early May
- Send rosters to administration  Mid May
  (divided into homogeneous groups)
- Summer contact: emails, newsletters  June/July
- Fall Instrument Testing for new students  First 2 weeks

The Musical Aptitude Test

- Some aptitude tests: Selmer Band Test, Gordon Test, or make your own.
- A good aptitude test should include:
  - Pitch difference recognition: higher, lower, same
  - Rhythm recognition: same, different
  - Melodic recognition: same, different
- Note areas of difficulty
  - Rhythmically challenged students may not be suited for percussion
  - Students who have trouble with pitch may not enjoy French Horn
- Allow students that don’t pass the test to re-take the test.

The aptitude test is NOT used for exclusion!

The aptitude test is only ONE part of allowing children to EARN membership.
Allow students to re-take the test until they pass (help them if you need to).
Physical Issues (Potential Problems)

- **Oboe:** Extreme overbite or under bite
- **Bassoon:** Extreme under bite and students with very short finger span
- **Clarinet:** Rounded or protruding teeth. Look for ability to display flat chin
- **Trumpet/Horn:** Under bite or extreme overbite. Protruding teeth on mouthpiece rim.
- **Trombone:** Under bite and arm length. (Consider trigger trombones)
- **Flute:** “Cupid’s Bow” and extreme overbite
- **Tuba:** Torso long enough to reach mouthpiece. (Consider tuba stands)
The Instrument Testing Night

If you don’t have the resources to run a full night like this, here are some “Solutions for the Lonely”
• Use area directors for your testing night (Return the favor)
• Combine ITN with other schools in the area
• Use college music majors
• Start with only limited instrumentation.

The Instrument Testing Night Process

The Registration Table

• Welcome from friendly students in band shirts
• Receive registration packet
• Assign a group of 4-6 prospects to guide
• Issue “Player Passes” as needed. Expedite those students.

The Registration Packet

• The Evaluation Form
• Information sheet about each instrument’s uniqueness
• Fact sheet and flyer about the band program
• FAQ Sheet

The Waiting Line

The Instrument Testing Room

- Charismatic teacher to test recruits AND charismatic student assistants
- Assistant, booster parents or other faculty oversee testing room
- Signs stating unique advantages of each instrument over each table
- Students are scored: great fit, good fit, average fit or not recommended.
- Instruments presented in logical order
  - Similar concepts together (saxophone/clarinet, flute/double reeds, trumpet/horn, trombone/euphonium)
  - Easiest before hardest-to play AND recruit

Suggested Order of Testing Tables

1. Saxophone  6. Trumpet
2. Clarinet    7. French Horn
3. Flute       8. Trombone
5. Bassoon     10. Tuba

Percussion Testing is OPTIONAL and held in a separate room

Placing the Student on an Instrument

• Pay attention to the student’s behavior, personality, neatness
• Always try to place a student on their first or second choice
• IF, you have to go to the third choice, always call to discuss
• Be willing to work with students who want to change instruments
**Suggested Instrumentation for 100 Member Band:**

Note: Clarinet and Trumpet are “padded” because this is where we see most attrition: Clarinets when crossing the break and Trumpets when getting to higher notes tend to have higher drop rates. These instruments also lend themselves well to filling in low reed and low brass spots later.

**The Invitation**

- Invitations are printed on nice GOLD paper. *Willy Wonka effect.*
- Have elementary school announce when band invitations will arrive
- Be ready to grab more students after others get invitations
- Final invitation has the meeting time for the New Band Families Meeting

*Congratulations! You have been chosen to play ________ in the ________ Band!*
Final Steps

• Present rosters to principal for scheduling
• Maintain contact throughout summer with students and parents via email/mail
• Schedule a “Fill In” testing in the fall for students who move in or missed the first night
• Relax! If you’ve done all of these steps, you’ll be exhausted

Balancing the Ensemble/Evaluating Prospects

• First and Foremost is the student’s ability to be successful on the instrument
• Transportation Issues: Tuba, Euphonium, French Horn, Trombones
• Family history with band
• Family involvement with conflicting activities
• Financial situation. Don’t put the parent in a no-win situation.

The First Year

• Connecting with your students
• They don’t care how much you know…
• Establishing a solid foundation for musical success

Scheduling for Success

• Homogeneous groupings
• What to do with the percussion?
• Weekly sectionals vs. full ensemble time

Teaching Music through Performance in Middle School Band
Gary Barton • Erin Cole • Chip De Stefano • Charles R. Jackson • Susan Taylor
Scott Tomlison • Marguerite Wilder
Foreword by Larry R. Blocher  Compiled and edited by Richard Miles

Rarely has a published resource contained so much invaluable information specifically for middle school band directors.

This much-needed volume fills a gap in the acclaimed Teaching Music through Performance series, providing critical information on creating an effective wind band program in Grades 6 through 8, from recruitment, rehearsal, repertoire, to concert.

Chapters by leading middle school band directors focus on organization and administration (Gary Barton), developing proper instrumentation (Erin Cole), recruitment and retention (Chip De Stefano), technique (Charles R. Jackson), literature selection (Scott Tomlison), rehearsal (Marguerite Wilder), and a comprehensive listing of other resources (Susan Taylor).

Central to this volume is the identification and analysis of 100 core works for middle school ensembles, organized by difficulty level, from middle school grade 1 to 3.5. A separate section is devoted entirely to analyzing marches, also organized by difficulty level. Together, these works make up core repertoire for middle school bands.

As with other books in the Teaching Music through Performance series, each Teacher Resource Guide includes information about the composer, the work, historical perspectives, technical considerations, stylistic considerations, analysis of musical elements and form and structure, suggested listening references, and cross references to additional resources.
